II. Estadísticas de importación

Ver Anexo I.

III. Requisitos de ingreso

Embajada de la República Argentina en Australia

Los requerimientos de acceso son publicados por Australian Biosecurity Import Conditions (BICON) dependiente del Departamento de Agricultura.

* En lo que refiere a aceites vegetales (PA 1509) los requisitos son los que se consignan en el siguiente link:

<https://bicon.agriculture.gov.au/BiconWeb4.0/ImportConditions/Conditions?EvaluatableElementId=394112&Path=UNDEFINED&UserContext=External&EvaluationStatelId=d9aa1230-3d67-414b-9eef-0f6c6b2b0c13&CaseElementPk=1120712&EvaluationPhase=ImportDefinition&HasAlerts=False&HasChangeNotices=False&IsAEP=False>

“Case: Fruit and vegetable juices and oils Effective: 04 Sep 2019

Vegetable oil

Import Conditions

Import conditions define the biosecurity requirements which must be met for your import. Where import conditions have been developed, they will be listed below.

- a. A Department of Agriculture import permit is not required.
- b. The goods must be clean and free of contaminant seed, soil, animal and plant debris and other [biosecurity risk material](#) prior to arrival in Australian territory.
- c. Each consignment of goods must be packed in clean and new packaging.
- d. Under the [Biosecurity Charges Imposition \(General\) Regulation 2016](#) and Chapter 9, Part 2 of the [Biosecurity Regulation 2016](#), fees are payable to the Department of Agriculture for all services. Detail on how the department applies fees and levies may be found in the [charging guidelines](#).
- e. In addition to the conditions for the goods being imported, non-commodity concerns must be assessed including container cleanliness, packaging and destination concerns, and may be subject to inspection and treatment on arrival. Please refer to the [Non-Commodity Cargo Clearance](#) BICON case for further information.
- f. Once biosecurity requirements have been met, it is the importer's responsibility to ensure that all [imported food](#) complies with the [Imported Food Control Act 1992](#) including [Australia New Zealand Food Standards Code](#). Consignments of food may be referred for inspection and analysis under the [Imported Food Inspection Scheme](#) to verify compliance. Some foods, such as [beef](#) and [raw milk cheese](#), are not permitted to be imported without government certification.

Embajada de la República Argentina en Australia

What happens next?

When you are importing into Australia a departmental officer will assess the risk posed by your import and determine the appropriate outcome to apply. You may use the link below to view the likely outcomes for this particular import scenario. Please be aware that the assessment conducted may result in an outcome that is not listed.”

* En el caso de las aceitunas, las PA 071120 y 200570 tienen sus requisitos en el siguiente link: <https://bicon.agriculture.gov.au/BiconWeb4.0/ImportConditions/Conditions/CasePathwaySection?EvaluationElementId=408396&Path=UNDEFINED&UserContext=External&EvaluationStateId=e41be5d7-179b-40b7-8d44-a4a0b1a7cc2a&caseElementPk=1161103&HasAlerts=False&HasChangeNotices=False&PathwayPk=556&ConditionElementPK=109492>

Case: Preserved fruit and vegetables for human consumption Effective: 06 Nov 2019

Other preserved fruit and vegetables — Over 10kg (non-personal)

Import Conditions

Import conditions define the biosecurity requirements which must be met for your import. Where import conditions have been developed, they will be listed below.

- a. A Department of Agriculture import permit is not required.
- b. This case describes the import requirements for fruits and vegetables (with or without seeds) which have undergone:
 1. Preservation or pickling. Acceptable forms are:
 - 1.1. Pickled in salt brine
 - 1.2. Pickled in vinegar
 - 1.3. Pickled in alcohol
 - 1.4. Packaged in sugar syrup
 - 1.5. Cured in salt or sugar

Embajada de la República Argentina en Australia

1.6. Glacé, crystallised or infused in sugar syrup (e.g. mixed peel, cranberries, tropical fruits)

1.7. Canned or bottled in salt, sugar, vinegar, salt brine, alcohol, or oil

1.8. Boiled with sugar until gelled (jam or jelly).

OR

2. Canning or aseptically packaged. Canned/aseptically packaged includes any product that has been adequately commercially heat treated to render the contents sterile and there is no chance of contamination from [Biosecurity Risk Material](#) (BRM). The product must be shelf-stable. Acceptable container types include:

2.1. Metal cans

2.2. Glass jars or bottles with 'twist off' lids or caps

2.3. Plastic containers that have heat sealed lids or lids closed by a double seam

2.4. Retort pouches

2.5. Thermoform-fill-seal containers, plastic cans, pouches or bags.

c. The consignment must be either:

1. preserved or pickled and packaged in a suitable manner, or
2. canned or aseptically packaged.

To demonstrate compliance with this requirement you must present the following on a [Manufacturer's declaration](#), [Invoice](#), [Bill of Lading](#), [Air waybill](#), [Product specification list](#) or [Food product label](#):

Evidence that the goods have undergone one of the acceptable forms of processing.

Embajada de la República Argentina en Australia

- d. Product must be commercially prepared by one of the methods described above and in clean and new packaging.
- e. For consignments that do not meet the above conditions, the product will be deemed un-processed and therefore will be subject to different import conditions. Depending on the commodity an import permit may be required from the Department of Agriculture, or the goods must be exported or disposed of. Importers should note that obtaining an import permit for goods that have already arrived in Australian territory may not necessarily facilitate the release of these goods as conditions of import may include government certification that cannot be obtained retrospectively from overseas agencies.
- f. In addition to the conditions for the goods being imported, non-commodity concerns must be assessed including container cleanliness, packaging and destination concerns, and may be subject to inspection and treatment on arrival. Please refer to the [Non-Commodity Cargo Clearance](#) BICON case for further information.
- g. Once biosecurity requirements have been met, it is the importer's responsibility to ensure that all [imported food](#) complies with the [Imported Food Control Act 1992](#) including [Australia New Zealand Food Standards Code](#). Consignments of food may be referred for inspection and analysis under the [Imported Food Inspection Scheme](#) to verify compliance. Some foods, such as [beef](#) and [raw milk cheese](#), are not permitted to be imported without government certification.

What happens next?

When you are importing into Australia a departmental officer will assess the risk posed by your import and determine the appropriate outcome to apply. You may use the link below to view the likely outcomes for this particular import scenario. Please be aware that the assessment conducted may result in an outcome that is not listed.

* Asimismo, se remite el siguiente link de la Asociación Australiana de aceite de oliva donde se encuentra un punteo con regulaciones.

IV. Perfil del consumidor

La tendencia de los consumidores ha variado en los últimos años influenciada por mayor preocupación por alimentos saludables y por la demanda de alimentos Premium. En ese sentido, la demanda de aceites más saludables como el de oliva extra virgen ha aumentado. En lo que refiere a productos Premium se destacan los aceites orgánicos y los de dietas particulares.

V. Canales de comercialización

En Australia existen dos grandes cadenas de supermercados que concentran gran parte de la comercialización, Coles y Wolesworths. Están presentes otras cadenas como Aldi e Iga. Asimismo, el aceite de oliva se comercializa en locales gourmet/delikatessen.

VI. Precios de mercado

Se proveen a continuación los precios de los principales supermercados y aquellos gourmet encontrados online. Cabe destacar que los precios están dólares australianos (AUD) y que el tipo del cambio al 19 de noviembre de 2019 es de 1 AUD= 0.68 USD.

250ml:

Red Island: \$4 AUD

375ml:

Cobram botella de vidrio (clásico, Extra Virgen y light): \$7 AUD

500 ml:

Coles \$3 AUD

Coles Extra Virgen \$5 AUD

La Española Extra Virgen botella de vidrio \$7 AUD (la versión light tiene el mismo precio)

Moro tradicional botella de vidrio \$7 AUD

Red Island botella de vidrio \$8 AUD

750ml:

Squeaky Gate Extra Virgen \$9 AUD

Monini Extra Virgen: \$12 AUD

Bertolli Extra Virgen: \$13 AUD

1 litro:

Coles Aceite refinado Botella \$6 AUD

Embajada de la República Argentina en Australia

Coles Extra Virgen \$7 AUD

Moro Tradicional botella de vidrio \$12 AUD

Moro Extra Virgen botella de vidrio \$12 AUD

Bidón 3 litros:

Squeaky Gate Extra Virgen: \$26 AUD

Cobram Extra Virgen y light ambos \$37 AUD

Bidón 3.78 litros:

La Española \$23 AUD

Bidón 4 litros:

Moro primero Extra Virgen: \$29 AUD

Categoría gourmet:

Carolli 500ml \$18.50

Padilla 500ml \$23 AUD

Petra 500ml \$27.95 AUD

Categoría orgánico:

Cockatoo Grove Orgánico Extra Virgen 250ml: \$ 7.95 AUD

Cockatoo Grove Orgánico Extra Virgen 500ml: \$12.95 AUD

Toscana Orgánico Extra Virgen 250ml: \$15 AUD

Toscana Orgánico Extra Virgen 500ml: \$23 AUD

Toscana Orgánico Extra Virgen 2 litros: \$53 AUD

VII. Competidores actuales

Embajada de la República Argentina en Australia

Como fuera descrito en el inciso anterior, se encuentran presentes en el mercado australiano los productos locales tanto aquellos que son de comercialización general que se encuentran en las góndolas de supermercados así como aquellos gourmet (Petra, Adina, Arolyn Grove, Belarna Grove, Laguna Olives, Olio Mio Estate, Patrice Newell, Pukara Estate, Woodlands Olive Grove, etc.) u orgánicos (Toscana, Cockatoo Grove).

En las góndolas de los supermercados, además de los australianos (la compañía Boundary Bend Limited, empresa integrada verticalmente en el rubro de aceite de oliva, comercializa las marcas Cobram y Red Island. Squeaky Gate es otra marca de producto australiano), dominan los aceites de oliva españoles (Moro, La Española) e italianos (Monini, Bertolli). También pueden encontrarse versiones gourmet importados como Caroli (Italia) o Padilla (España).

Cabe destacar que los supermercados comercializan marcas propias. En el caso de Coles, su aceite de oliva comercializado con marca Coles especifica en su descripción el origen español del producto.

Finalmente, en lo que refiere a producción local de aceitunas cabe mencionar que el 76% de la producción de aceitunas se realiza en el Estado de Victoria y cerca del 10% en el Estado de Western Australia. Asimismo, aproximadamente el 64% de la producción de aceitunas lo concentra la empresa Boundary Bend Limited.
